

Center City Neighborhood Association Danville, Illinois

Do not place in mailboxes.

October 4, 2007

What: Neighborhood Association Meeting

When: Thursday, October 4th at 7p.m.

Where: Garfield Elementary School

Recap from last month:

Last time, we had a guest Speaker, Tracy Stebbins. He is from the city of Danville Public Development Department. We were told to call his office, 431-2274, with any neighborhood problems such as illegal dumping, graffiti, overgrown yards, dangerous structures, etc. Tracy's department works closely with the police, fire, legal and animal control offices. The city inspectors go on daily patrols, violation & complaint calls as well as full and mini blitzes. All in an effort to continually improve the quality of life for the City of Danville.

One of our neighbors, Jim Beebe, was able to get in touch with the teachers credit union. They may make copies of our flyers. That way we can distribute them to all of the neighbors again. We also might think about making a permanent meeting time and place. For the remainder of 2007 we will continue to meet at Garfield Elementary School.

We will be proposing an activity for this October. Ideas are currently being thought up and will be presented at the October 4th meeting.

Jim also spoke to Chittick eye care. They may have expressed interest in our association and a willingness to assist, when they are finished remodeling, which will probably be in 2008. It is very exciting that so many businesses are interested in our group. Thanks to Garfield School, The teachers credit union and Chittick.

Proposed Fall Activities

- **Pumpkin Painting (carving) Day**
This would be a day of pumpkin carving for neighbors inside the neighborhood association area. The day will be Saturday, October 27, 1 pm to 5 pm. Tables, pumpkins, chairs would be provided.
- **Alley Clean-Up Day**
We would set a clean-up day for Saturday, November 3, 8 am to Noon. The neighborhood will request the PrideGrows trailer containing all the tools and items needed. There are 4 alleys in our area.
- **Treat Night**
Parents and children in the neighborhood would trick or treat to houses participating in this event. This activity would provide for a safe time for children to visit housing giving out candy. Neighbors and parents would participate and encourage safety and security in the neighborhood and crossing streets.
